DETAILED ACTION

Election/Restrictions

Claims 2-11, 13-21, and 23-31 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 8.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 12 and 22 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by either Stewart et al (6,325,797) or Jenkins et al (2002/0004631). Applicant's attention is directed to Figures 1-7 of Stewart et al, particularly Figure 6 and Figure 16 of Jenkins et al.

Response to Arguments

Applicant's arguments filed May 5, 2003 have been fully considered but they are not persuasive. In column 10 of Stewart et al, the discussion relating to Figure 4 only states that the distal portion may include electrodes (lines 22-23, 33-35, and 45-46). Further, in Jenkins et al, Figure 16 fails to include electrodes in the distal portion. Element 22 of the reference is merely a tip member. Accordingly, the prior rejections are still deemed to be proper.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
